

VANCE COUNTY SCHOOLS

OFFICE OF THE SUPERINTENDENT

February 1, 2017

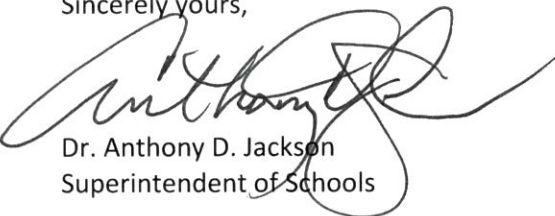

Dear Parents:

Kindergarten is a very important step in the formal education of your child. We, at Vance County Schools, welcome you and your child to this very important year in our school system. Our support and cooperation will be provided for you now and throughout your child's educational process in our school system.

The relationships that can and will be developed between home and our school system will be very vital to your child's success in our school system. The physical, social, emotional and intellectual growth of your child is greatly enhanced when mutual cooperation exists. The cooperative efforts will result in the best educational experience for your child. We will work together (schools and parents) to direct our knowledge, our efforts and our concerns to assure that your child's kindergarten year in Vance County Schools is successfully productive.

If you have questions or concerns about our Kindergarten Program, please contact your school's principal or Dr. Trixie Brooks, Assistant Superintendent for Curriculum and Instruction, at (252) 492-2127.

Sincerely yours,

Dr. Anthony D. Jackson
Superintendent of Schools
